03

EQUATIONS

Equations and highlights

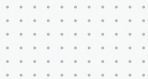

An example display equation¹:

$$\mathcal{F} = \frac{1}{2}(1 + \langle \psi | \rho | \psi \rangle).$$

Key idea

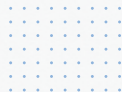

Use a block to highlight a definition, a result, or the main takeaway of the slide.

¹ Source: example equation notation

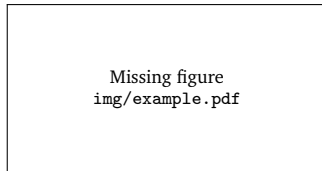

04

FIGURES

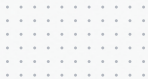

Figures

Insert figures with `\includegraphics`¹. Missing files render as a placeholder box (see the preamble), so the deck always compiles.
